Remember why you Care

Distance RN to BSN Completion Option

Adventist University of Health Sciences
Florida Hospital’s University

ONLINE.ADU.EDU
Your vision to care for your patients coincides with our vision to care for you. In harmony with the mission of Florida Hospital, we provide an atmosphere where you can develop spiritually, intellectually, and socially while pursuing your Bachelor's degree so you can exceed your patients' expectations.

Adventist University of Health Sciences (ADU) is committed to helping you further your education while continuing to work with your patients. Our online RN to BSN Completion Option is designed to accommodate your busy schedule without jeopardizing the quality of your education.

- Graduate in as few as 18-24 months.
- No campus visits are required.
- Personal interaction with faculty and peers.
- Accredited by the Southern Association of Colleges and Schools, and the Accrediting Commission for Education in Nursing (ACEN).*

Adventist University of Health Sciences wants to help you reenergize your passion. In the midst of every day work, it is easy for the reason you chose nursing to slip into the background. We are here to help you remember what motivated you to answer the call to become a nurse.

By providing an uncommon level of one-on-one student support, our dedicated faculty demonstrates its passion: helping you reach your nursing education goals. By experiencing our unwavering commitment to you, we hope you will be inspired to make the higher purpose of what you do for each and every patient your daily career compass.
Our goal is to help you succeed by offering further education on how to provide wholistic healthcare to individuals, families, and communities. As a graduate of the online RN to BSN completion option, you should be able to apply theories, Christian values and research-based knowledge to design, coordinate, and manage healthcare in diverse settings.

Our distance learning program offers you consistent access to devoted faculty and staff. Distance enrollment specialists, course instructors, professional facilitators, distance student managers, helpdesk, student services, and fellow peers are here to help you every step of the way. This comprehensive level of assistance provides you a rich learning experience. Our multi-faceted approach delivers course content through lectures, readings, discussion sessions, and online assignments.

Course Delivery Methods

Adventist University of Health Sciences gives you the tools to help you advance your career. Today’s experienced faculty, dedicated to helping you in your pursuit of a Bachelor of Science degree in Nursing, are invested in your academic and personal success. Our state of the art curriculum delivery methods blend exceptional instruction with hands-on learning from active nurse leaders.

Learn at Home
All course materials are conveniently delivered via the Internet so information can be accessed at anytime. This allows you to find the schedule and environment that best fit your preferred learning style.

Learn Online
The ADU online course website, Canvas, provides you with 24-hour access to discussion forums, class email, assignments and course schedules.

Learn Together
Each student is assigned to a small group, led by a professional facilitator who provides academic guidance. Students participate in synchronous forums, and share real-world experiences. Courses are designed to build/nurture/sharpen leadership skills before peers through collaborative group projects aimed at improving nursing practice. This “virtual classroom” increases overall understanding of the course content and promotes special learning.

Learn Through Workplace Applications
Practical assignments allow immediate opportunities to apply what you have learned in your current workplace. You are encouraged to apply the curriculum to your day-to-day situations.

Learn Through Clinical Projects
Clinical projects are integrated into several courses within the online RN to BSN completion option. These projects are designed to enhance the didactic course information and are to be completed within the community where you live. You may be required to find a preceptor who will assist or monitor you when completing some projects.

Admissions

Both Associate degree and ACEN-accredited diploma program graduates can be eligible for admission with the following requirements:

- Minimum cumulative GPA of 2.50 with no grade below a “C” (2.00). Diploma graduates who do not have college credit for Associate degree cognate courses must complete each required course with a minimum grade of “C” (2.00) and earn a cumulative cognate GPA of 2.50 before being considered for admission to the online RN to BSN Completion Option
- Current RN license, or if a recent graduate, eligible to sit for the NCLEX-RN
- Two letters of recommendation, one of the two letters must be from a supervisor or faculty member
- Official transcripts from all colleges/nursing programs

Students in the online RN to BSN Completion Option may qualify for federal financial aid and/or private student loans. Our Distance Enrollment Specialists can help you learn more about this program and assist you throughout the application process.

“My online learning experience at ADUHS has been excellent. I’ve been able to go at my own pace, work ahead when I’ve needed to or liked to. I have two small children so I’ve been able to go online at 1:00 in the morning to do homework and things like that.”
